

2011 COLORADO CONFERENCE ON
EARTH SYSTEM GOVERNANCE:
CROSSING BOUNDARIES AND BUILDING BRIDGES
COLORADO STATE UNIVERSITY | 17-20 MAY 2011

Guidelines for Full Papers

Deadline

The deadline for submission of full papers is 1 May 2011. Please submit your paper by email to esg2011@colostate.edu (as a Word or preferably a PDF document). We will make papers available on the conference website before the start of the 2011 Colorado Conference on Earth System Governance.

Format

Given that this is an interdisciplinary conference, participants are encouraged to draw on their own disciplinary norms and standards for paper length and format (including citation and reference style). Authors should make every effort to explicitly engage the [conference themes](#) and/or the [IHDP Earth System Governance science plan](#) and to avoid disciplinary jargon. The paper should include a short abstract and may acknowledge assistance, including sources of financial aid. Reference should be made to the 2011 Colorado Conference and the panel on which your paper will be presented (this information will be available as the conference date approaches). We suggest as text font 12-point Times New Roman or comparable font with 1.5 line-spacing throughout to enhance readability. Please check English grammar and spelling carefully before submitting your paper.

Any questions or concerns about papers should be directed to esg2011@colostate.edu or +1 (970) 492-4212.
